

SONEXone

Acoustical Material

What is SONEXone?

SONEXone is our highest-quality acoustical foam, made from fireproof melamine and loaded with unique touches that make it especially suited for architectural applications.

We take our famous SONEX pattern and make it subtler, with gently rolling wedges. Then we bevel the edges, producing a uniform, seamless look.

SONEXone is available in 2" and 3" thicknesses to suit a variety of applications. It is available in bright white, economical light gray, and with a cleanable high performance coating.

Where is SONEXone Used?

Use SONEXone where you want to showcase the finest acoustical foam available. This includes offices, restaurants, theaters—anywhere noise and echo are a problem. SONEXone is rated Class 1 for flammability, so it can be used anywhere.

HPC Coating

SONEXone is available with an optional HPC (high performance coating) that improves its acoustical properties and adds cleanability.

Coated SONEXone can be wiped clean with a damp cloth and mild detergent. The coating also adds another layer of absorption, allowing coated SONEXone to absorb significantly more noise than uncoated.

Physical Properties

Material:	Open cell melamine
Density	.7 lbs. per cubic foot
Flame Spread	<25
ASTM E84 Class	1
Color:	White, gray or painted

Acoustic Absorption Coefficients

Uncoated

Frequency	125	250	500	1000	2000	4000	NRC
2"	0.17	0.33	0.85	1.03	1.08	1.06	0.80
3"	0.09	0.68	1.20	1.18	1.12	1.09	1.05

Coated with HPC

Frequency	125	250	500	1000	2000	4000	NRC
2"	0.13	0.41	1.02	1.18	1.18	1.13	0.95
3"	0.13	0.85	1.25	1.22	1.13	1.14	1.10

Uncoated SONEXone Pricing

2" thick	Sheet size	Sheets in box	Color	
Bright white or light gray	24"x 48"	8 (64 sq.ft.)	Gray	White
		1-9 boxes	\$356	\$440
		10-19 boxes	\$309	\$383
		Over 20 boxes	\$273	\$339
