

# SONEX Whiteline Ceiling Tiles

## SONEX Whiteline Tiles Create an Inexpensive, Dazzling White Ceiling

Now there's a new standard in ceiling tiles—SONEX Whiteline.

These contemporary bright white tiles have a distinctive smooth finish that's a total departure from the rough-textured ceiling tiles of the past. They

absorb noise—not with fiberglass like many ceiling tiles—but with SONEX's fireproof melamine acoustical foam.

Whiteline tiles are available in a variety of dimensions, from standard 24" x 24" and 24" x 48" tiles to 48" by 96" tiles. Whiteline tiles can be installed into any conventional ceiling grid.

Whiteline Ceiling Tiles can be easily cut with a sharp knife—no special tools are required. They're lightweight, and ship via UPS.

### Specifications:

Acoustic melamine foam, Class 1 fire-rated.  
Colors: Bright white.  
Coated with white fleece.

### Acoustic Absorption Coefficients

Frequency	125	250	500	1000	2000	4000	NRC
24" by 24" tiles	0.27	0.60	0.64	0.80	0.91	1.02	0.75
24" by 48" tiles	0.27	0.60	0.64	0.80	0.91	1.02	0.75
